1. Welcome and Introduction

Welcome to MLA College. We are delighted that you have chosen to study with us. We will do all we can to ensure sure you get the maximum benefit from your time here – and that you will be well prepared for the next stage in your academic or professional career path.

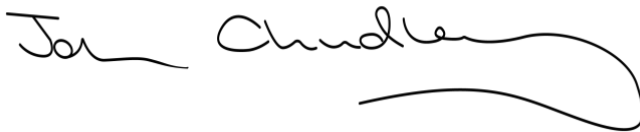

You will already know that MLA College is internationally recognised for its excellent reputation, and you will also benefit from the consistently high standards and expectations MLA College brings to all aspects of its teaching and learning.

You will find that all our staff are dedicated to ensuring you have the best experience possible. As well as being professional, intellectually challenging and up-to-date in their knowledge of the subject matter, we ensure that those teaching you do so in a research-informed, creative, responsive, and engaging way. Your tutors are supported by highly experienced professional colleagues who are here to give you advice and guidance on all aspects of your studies.

As a student at MLA College and the University of Plymouth your feedback is important to us, and we have in place a number of surveys conducted by MLA College during your period of registration. Please do take the time to complete these surveys which will inform our plans to ensure all students continue to receive the best possible experience during their time with us.

We want you to enjoy the best study experience possible and we are here to help create the best opportunities for what you want to do next.

Welcome again to the MLA College.

A handwritten signature in black ink that reads "John Chudley". The signature is fluid and cursive, with a long, sweeping underline that extends to the right.

Professor John Chudley, Rector

MLA College

2. About this Handbook

This Programme Quality handbook contains important information including:

The approved programme specification

Module records

Note: The information in this handbook should be read in conjunction with the current edition of:

- our MLA College Student Handbook which contains student support- based information on issues such as finance and studying at HE available at: [here](#)
- Your University of Plymouth Student Handbook available [here](#)

3. Programme Specification

3.1. Programme Details

Awarding Institution:	University of Plymouth
Partner Institution and delivery site (s):	MLA College The Merchant, St Andrew Street, Plymouth, PL1 2AX
Accrediting Body:	N/A
Language of Study:	English ¹
Mode of Study:	Part time distance e-learning
Final Award:	MSc Advanced Navigation for Professionals
Intermediate Award:	None
Programme Title:	MSc Advanced Navigation for Professionals
UCAS Code:	N/A Applications handled directly
JACS Code:	J611
Benchmarks:	Framework for Higher Education Qualifications (FHEQ); QAA Earth Sciences, Environmental Sciences and Environmental Studies (ES3) Subject Benchmark Statements, October 2014. Southern England Consortium for Credit Accumulation and Transfer (SEEC), Level 7 Descriptors (SEEC 2021) “Master’s Degree characteristics”, The Quality Assurance Agency for Higher Education (QAA), March 2010.
Date of Programme Approval:	28 February 2017

¹ Unless otherwise approved through University of Plymouth’s Academic Development and Partnerships Committee

3.2. Brief Description of the Programme

The MSc Advanced Navigation for Professionals programme consists of a stand-alone 60 credit research module, which provides the opportunity to complete a full 180 credits at Level 7 for:

1. Predominantly employed individuals working as professional mariners, who have studied up to PGDip level to date.
2. Students wishing to apply using general credit from other PGDip or full MSc programmes at other institutions, or as professional mariners

The Institute for Marine Engineering, Science and Technology (IMarEST), the MLA's parent body, has a Career Development Framework to help its members reach Chartered status. The Chartered Marine Technologist register facilitates career development through a coherent framework. Achieving Chartered Marine Technologist can be through graduation from an appropriate Master's degree programme along with a significant level of professional marine experience. However, the majority of experienced mariners may not be eligible to apply for Chartered status, as their professional STCW qualifications are not usually associated with a postgraduate degree, and they can lack some of the specific competencies required. This programme, with its flexible entry requirements, will enable a broad spectrum of mid-career to senior level professionals the opportunity to progress their careers within the marine and maritime industries.

During the programme, students will have the opportunity to undertake advanced research methods training, project planning, data management and statistics; and carry out independent research as part of the MSc Project.

3.3. Details of Accreditation by a Professional/Statutory Body (if appropriate)

None

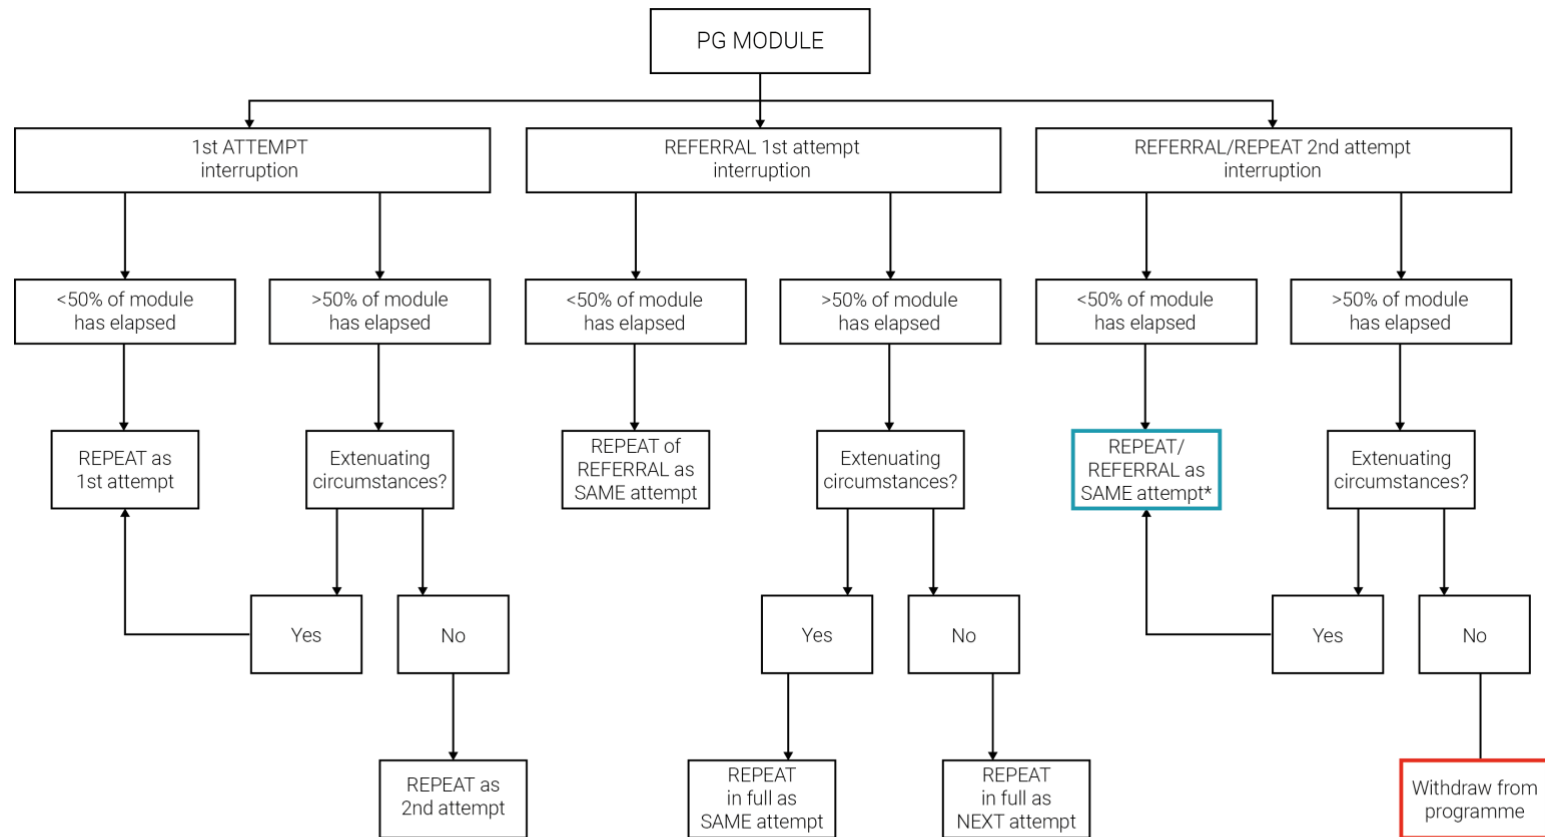

3.4. Exceptions to University of Plymouth Regulations

(Note: The University of Plymouth's Academic Regulations are available [here](#))

The University's Academic Regulations are implemented in full, with the exceptions below:
Approved by the University of Plymouth on 15th June 2021.

1. **48 Hour Extension for Late Submission:** the student's Personal Tutor may approve a 48-hr extension for Distance Learning assessment submission without need for formal Extenuation Circumstances application.
2. **For modules delivered via distance learning - 28 (calendar) day Extenuating Circumstances Extension for Late Submission:** in exception to the UoP's Extenuating Circumstances Policy and Procedures, both self-certified and evidenced applications for Extenuating Circumstances (EC), considered valid by MLA College, will be offered 28 calendar days as an extension to the assessment deadline. Additionally, poor internet connection, where appropriately described as an employment driven issue causing the missing of an assessment deadline (e.g. whilst 'at sea'), may be considered as a valid extenuating circumstance.
3. **For modules delivered via distance learning, Instant Referrals in the event of Failure or Non-Submission:** with or without submission of a valid Extenuating Circumstances claim, may be approved through MLA College's Interim Assessment and Award Board (IAAB) which then reports to the next scheduled UoP Subject Assessment Panel (SAP) and/or Award Assessment Board (AAB)

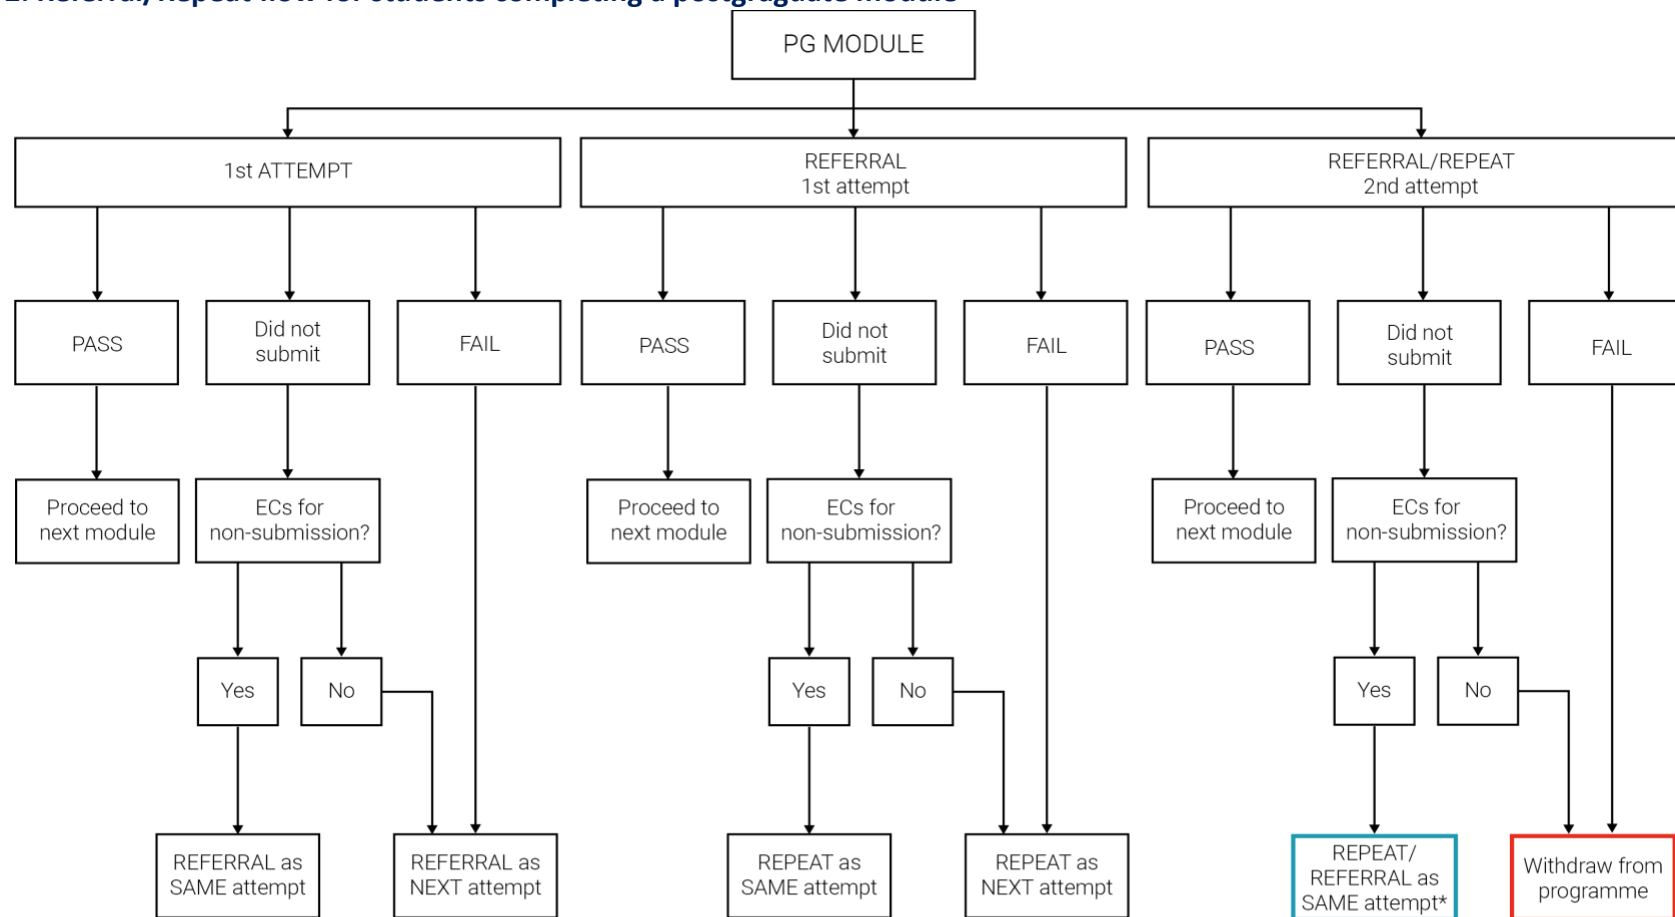

Table 1: Referral/Repeat flow for students interrupting before the completion of a postgraduate module

* REFERRAL/REPEAT = same as previous

** If previous attempt was REFERRAL the next attempt will be REPEAT. If previous attempt was REPEAT the next attempt will be REFERRAL.

Table 2: Referral/Repeat flow for students completing a postgraduate module

* If previous attempt was REFERRAL the next attempt will be REPEAT. If previous attempt was REPEAT the next attempt will be REFERRAL.

3.5. Programme Aims

The programme aims to:

Prepare students for the next stage of their careers and improve their effectiveness within a management role

Enable those undertaking the programme to contribute towards research in the discipline

3.6. Programme Intended Learning Outcomes (ILO)

By the end of this programme the student will be able to:

Demonstrate and apply a practical understanding of how established research techniques are used to collect and interpret knowledge in marine navigation

Demonstrate an in-depth knowledge and understanding of the chosen topic area, within the context of the body of knowledge appropriate to Master's degree level

Evaluate critically current research and advanced scholarship in marine navigation

Communicate scientific findings effectively, in a manner suitable for a wide audience

3.7. Distinctive Features

The MSc Advanced Navigation for Professionals is an innovative, part time distance e-learning Master's degree 'top-up' programme. The programme begins with a module covering Advanced Techniques in Research Methods. This includes evaluation of literature, data evaluation, statistical and modelling techniques; along with planning, writing, and presenting a complex research project.

The e-learning course materials for Advanced Techniques in Research Methods are delivered through MLA's Total Learning Package, which can be downloaded to a variety of platforms, including tablets, smart phones, and computers. Using cutting-edge technology, the Total Learning Package is fully functional whether the device is connected to the internet or not, which enables students to study successfully in any location ashore, or whilst deployed for extended periods offshore. The Total Learning Package adds considerable value to lecture material with formative testing, transcripts and learning support materials.

This programme is a flexible, fully tutor supported, distance e-learning programme, which has broad appeal and is a gateway to professional advancement. Use of University of Plymouth teaching and learning resources is enhanced by the availability of the extensive Institute of Marine Engineering, Science and Technology (IMarEST) e-library and virtual resources, available to all MLA College students.

3.8. Student Numbers

The scalability of the part-time distance e-learning model employed by the MLA facilitates considerable flexibility in terms of student numbers. A staff: student ratio in the order of 1:5 is considered appropriate considering the part-time nature of the students.

Minimum student numbers per stage = N/A, no minimum

Target student numbers per stage = 10

Maximum student numbers per stage = N/A. Tutor capacity can be scaled in a timely way to meet demand

3.9. Progression Route(s)

There are no automatic progression routes from this programme, however, successful graduates are able to apply for doctoral study with University of Plymouth or another education provider; or may

complete further Master’s level study with MLA or another provider in line with their professional requirements.

3.10. Admissions Criteria

Qualification(s) Required for Entry to this Programme:	Details:
Level 2: Key Skills requirement / Higher Level Diploma: and/or GCSEs required at Grade C or above:	All applicants must have GCSE (or equivalent) Maths and English at Grade C or higher.
Level 3: at least one of the following: AS/A Levels Advanced Level Diploma: BTEC National Certificate/Diploma: VDA: AGNVQ, AVCE, AVS: Access to HE or Year 0 provision: International Baccalaureate: Irish / Scottish Highers / Advanced Highers:	N/A
Work Experience:	In the case of admission to the MSc, MLA are keen to consider admission on the basis of work or life experience. Where an applicant presents with significant and entirely appropriate experience, this may be taken into account in lieu of certificated qualifications, regardless of age. Relevant maritime experience will be considered on individual merit. Specific reference to APCL and APEL is made below.
Other HE qualifications / non-standard awards or experiences:	120 level 7 credits in a related cognate area, or equivalent experience (see APEL).
Interview / Portfolio requirements:	Applicants are expected to submit a full <i>Curriculum Vita</i> or résumé and an application form together with a personal statement. Admissions tutors for the Marine Learning Alliance will check all applications thoroughly and arrange an interview (usually by telephone or video conferencing) for potential students in order to assess their suitability for study. Offers of places are based on the information provided in the application documents and interview (where appropriate). Students will be required to undertake an interview (online, telephone or face to face), and may be required to complete a portfolio assessment. This may take the form of a portfolio of evidence of experiential learning where appropriate. In line with university regulations, the learning derived from experience or study must be identified in order to be assessed. Identification must be made by the student, on the basis of systematic reflection on the experience or study and the provision of clear and evidenced statements about that learning. This will be formally reviewed to determine that the learning

	has in fact occurred and that it is still current, and equivalence to university credit weightings and levels. In the case of students being required to complete a form of assessment it will be governed by University of Plymouth regulations and serves to demonstrate that they have satisfied the learning outcomes of the module(s) for which credit is claimed.
Independent Safeguarding Agency (ISA) / Disclosure and Barring Service (DBS) clearance required:	No
English language requirements	If students have not obtained or do not have the appropriate entry qualifications in the English language, they may be required to produce evidence of English language ability. This will normally be the equivalent of: GCSE Grade C or above in English language. IELTS 6.5 overall or above with a minimum of 5.5 in all four components (listening, reading, speaking, and writing) For further information and alternatives to IELTS, see University of Plymouth's International Student Entry Requirements .

The University's regulations for Accreditation of Prior Certificated Learning (APCL) and Assessment of Prior Experiential Learning (APEL) are set out in the 'University Academic Regulations', whereby up to 120 credits at Master's level can be APL.

Admission to the Marine MSc Suite will require assessment of APCL, APEL or a combination of the two as part of the admissions process. University of Plymouth's standard regulations on Accreditation of Prior Learning will be followed, and the relevant and programme-specific detail is outlined below:

- The maximum amount of prior credit which a student may claim towards a University of Plymouth award, and the minimum credit which must then be studied at the University in relation to specific awards, is 120 credits, including at least 60 credits at Level 7.
- Students can seek credit through APCL or APEL.
- A student can claim APCL credit from CPD short courses as well as from named awards.
- Decisions on the award of credit are a matter of academic judgement and are therefore final. The procedure for making an APCL or APEL claim is set out in the table below.
- Credit for prior certificated learning which occurred more than eight years ago will not be accepted. A student may be able to combine outdated (i.e. more than eight years prior) certificated learning with more recent experiential learning. In this case, the certificated learning should be considered as part of an APEL claim.
- A student who has submitted an assessment for an APEL claim that does not meet the required learning outcomes will either be offered the opportunity to submit an appropriate piece of referred coursework for the module(s)
- Claims for APEL will be examined in line with the standard quality assurance procedures, including external examining where appropriate.

Appendix 1 lists the characteristics, attributes, and skills that Master’s degree graduates are expected to display.

Taking from these are the profiles most relevant to the MSc Advanced Hydrography for Professionals. Any prospective student for the Marine MSc suite who is seeking credit through APEL, or a combination of APEL/APCL will have to ensure that they are able to meet the learning outcomes below:

1. To demonstrate a deep and systematic understanding within the discipline and its interrelationship with other relevant disciplines
2. To demonstrate, with appropriate examples, the flexible and creative application of knowledge in unfamiliar contexts
3. To provide evidence, with reflection, of having undertaken the analysis of complex, incomplete or contradictory evidence/data and making appropriate judgements
4. To demonstrate advanced technical or professional activity, with evidence of accepting accountability for related decision making,

The programme Admissions Tutor will ensure that an assignment is set which meets the needs of both the individual applicant and the standards requirement.

3.11. Programme Structure²

The following structure diagram(s) provides the current structure for this programme:

FHEQ level: 7 For: MSc Advanced Navigation for Professionals Full Time				
F/T Route Year	When in Year? (i.e. Autumn, Spring etc)	Core or Option Module	Credits	Module
No Full Time Route				

FHEQ level: 7 For: MSc Advanced Navigation for Professionals Part Time				
P/T Route Year	When in Year? (i.e. Autumn, Spring etc)	Core or Option Module	Credits	Module
12 months	All year	Core module	60 credits	MLA715 Research Project

See figure 2 below, for further details:

² The provided table includes only a single line. This should be multiplied by copying and pasting to produce the correct number of modules for the level of the programme. For ease of consideration and clarity, please include a separate table for each level by again copying and pasting this table. Colour coding/ shading may be used to differentiate between new modules and existing approved modules shared with other programmes.

3.12. Explanation and Mapping of Learning Outcomes, Teaching & Learning and Assessment³

Developing graduate attributes and skills, at any level of HE, is dependent on the clarity of strategies and methods for identifying the attributes and skills relevant to the programme and where and how these are operationalized. The interrelated factors of Teaching, Learning and Assessment and how these are inclusive in nature, are fundamentally significant to these strategies and methods, as are where and how these are specifically distributed within the programme.

Ordered by graduate attributes and skills, the following table provides a map of the above, plus an exposition to describe and explain the ideas and strategy of each. Therefore, subsequent to the initial completion for approval, maintenance of this table as and when programme structure changes occur is also important:

FHEQ level: 7					
Definitions of Graduate Attributes and Skills Relevant to this Programme	Teaching and Learning Strategy / Methods	Prog Aims	Prog intended Learning Outcomes	Range of Assessments	Related Core Modules
<p>Knowledge / Understanding:</p> <p>Students should demonstrate:</p> <p>A systematic understanding of current problems, theoretical and methodological approaches, and how these affect the interpretation of knowledge relevant to navigation</p> <p>An understanding of the complex interrelationships between the various disciplines within navigation</p>	<p>Primary: Mainly student-led research and project work. Supplementary research-methods lectures provided by technology-enhanced distance learning</p> <p>Secondary/Supplementary: Tutorials by telephone, video conferencing; webinars and provision of information through MLA's supporting technology to aid student learning. On and offline seminars, workshops, students' local field work, work-based learning, case studies, project work, simulation, practical work and demonstration, virtual discussion groups and mentoring.</p>	1,2	1,2,3	<p>Assessment methods include:</p> <p>Critical literature review, research proposal and a dissertation.</p>	MLA715

³ For programmes containing more than one FHEQ level of study, i.e. a bachelor programme with levels 4, 5 & 6, a separate map must be provided for each level. The table should be copied and pasted to enable this.

An explanation for embedding Knowledge and Understanding through Teaching & Learning and Assessment at this level of the programme:

The learning and assessment strategy is designed to embrace the nature of this distance e-learning programme and make best use of appropriate technology to inculcate the relevant aspects of knowledge and understanding at Level 7. The MLA uses a balanced approach of constructivist and behaviourist teaching and learning; whereby students are 'lectured' in an off-line web-based IT architecture, exposed to practical applications and activities, and complete formative assessment, before undertaking a period of reflection and summative assessment. For example in knowledge and understanding, teaching, learning and assessment; students are introduced to a range of appropriate data sources, software and technologies that include industry standard techniques, so that students are able to revisit the information, in context, attempt formative assessment (repeatedly if necessary), reflect, and then complete a knowledge and understanding focussed assignment, as part of their portfolio of work.

Cognitive and Intellectual Skills:					
Students should be able to:	Primary: As above: the taught 'Research Methods' element of this programme is delivered by fully tutor supported distance learning. Support for cognitive and intellectual skills learning is particularly appropriate in this distance learning environment as students are mature adult learners, most of whom are employed within industry, and who are very able to recognise their own circumstances and status, understand cognitive and intellectual skills learning outcome targets, self-motivate, take responsibility for their own learning, and use distance learning	1,2	1,2,3	As above.	MLA715
Deal with complex issues both systematically and creatively					
Develop critical responses to existing practices and research in navigation, suggesting new concepts and approaches where appropriate					
Evaluate critically current research and advanced scholarship in relevant areas relating to the broad spectrum of subjects within navigation					
Demonstrate originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to interpret knowledge in navigation					

	resources to maximum effect. Secondary/Supplementary: As above				
<p>An explanation for embedding Cognitive and Intellectual Skills through Teaching & Learning and Assessment at this level of the programme:</p> <p>Teaching, learning and assessment of cognitive and intellectual skills lends itself well to supported distance e-learning as testing comprehension, logical analysis and problem-solving skills may be readily achieved in across a variety of formative, numerical and written summative assessments. Students are empowered and take control of their learning content and pace, attending virtual lectures, videos, demonstrations, and simulations, supported by accompanying transcripts and notes. Once the learner has undertaken the Research Methods chapter and produced their detailed research proposal with help from their academic tutor, the tutor remains on hand to mentor the student through the self-directed research process.</p>					
<p>Key Transferable Skills:</p> <p>Students should be able to:</p> <p>Communicate information, arguments, and analysis effectively at both a scientific and professional level, for specialist and non-specialist audiences, using structured and coherent arguments</p> <p>Deal with complex issues both systematically and creatively, making sound judgements in the absence of complete data,</p> <p>Use a range of techniques to initiate and undertake complex and independent problem solving</p>	<p>Primary: Mainly student-led research and project work. Tutorials by telephone and/or video conferencing. Formative feedback and comment from personal tutor</p> <p>Secondary/Supplementary: Examination of case studies, project work, practical work and demonstration, virtual discussion groups and mentoring.</p>	1,2,3	1,2,3,4	As above	MLA715
<p>An explanation for embedding Key Transferable Skills through Teaching & Learning and Assessment at this level of the programme:</p> <p>Producing the literature review and selection and development of research question, and the detailed research proposal provides a more structured approach for the student at the beginning of the programme, ensuring that they do not lose their way – an issue which can be encountered, particularly with mature learners, at the start of a largely self-directed programme of study. Regular mentoring from a personal tutor, who will provide formative feedback where appropriate will facilitate the development of KT skills in the learner</p>					
<p>Employment Related Skills:</p> <p>Students should be able to:</p> <p>Demonstrate an independent learning ability required for continuing professional development.</p> <p>Plan and implement tasks at a professional level</p>	<p>Primary: The student-directed nature of a research project facilitates the further development of these skills</p>	1,2	1,2,3,4	As above	MLA715

<p>Reflect critically on own learning development and style with application to professional career development</p>	<p>Secondary/Supplementary:</p> <p>Work-based learning and employment-related case studies, discussion groups and mentoring by tutors are used to support employment related skill learning.</p>				
<p>An explanation for embedding Employment Related Skills through Teaching & Learning and Assessment at this level of the programme:</p> <p>As a maritime industry focussed programme, the MSc Advanced Navigation for Professionals programme offers students a wide range of high-quality employment related skills, aimed at middle manager level. The majority of prospective students are expected to be drawn from oil & gas, and other marine related industries, working as junior to mid-level operational, engineering, or administrative staff and wishing to enhance their knowledge and understanding as a means to progress their careers.</p>					
<p>Practical Skills:</p> <p>Students should be able to:</p> <ul style="list-style-type: none"> • Manage their own working priorities, to plan, organise and manage time. • Plan and manage a project making decisions in complex and unfamiliar context 	<p>Primary:</p> <p>Computer modelling and simulation, use of primary and secondary data</p> <p>Secondary/Supplementary:</p> <p>Mentoring by personal tutor</p>	<p>1,2</p>	<p>1,3,4</p>	<p>As above</p>	<p>MLA715</p>
<p>An explanation for embedding Practical Skills through Teaching & Learning and Assessment at this level of the programme:</p> <p>It is important for students wishing to operate effectively at a senior level within industry to be able to manage a discrete research project effectively, self-direct such a project, and deliver results to a given deadline. This module, and the assessment strategy (incorporating an initial critical literature review and then a detailed research proposal) facilitates the development of these important practical skills within a student's portfolio of capabilities</p>					

3.13. Work Based/Related Learning⁴

FHEQ level:7					
WBL/WRL Activity:	Logistics	Prog Aim	Prog Intended LO	Range of Assessments	Related Core Module(s)
Application of theory, knowledge and understanding to current problems and issues in the industry	Delivered through tutor's formative feedback, and the student-led dissertation	1,2	1,3	As above	MLA715
<p>An explanation of this map: This programme is specifically intended for those already working within industry. A focus remains, however, in ensuring that all teaching and learning activity demonstrates clear relevance to industry practice and requirements. This will be assured through the regular benchmarking of teaching and learning activities against clear industry requirements, a practice facilitated through the MLA's links with the IMarEST and their participation in groups such as the Marine Industry Alliance Skills Group.</p>					

3.14. APPENDIX 1. QAA Master's degree characteristics summary, and SEEC level descriptors for use in APEL

In addition to the five characteristics listed below (QAA, 2015, Master's degree graduates are also expected to display the attributes and skills listed in Table 1 below:

1. use initiative and take responsibility
2. solve problems in creative and innovative ways
3. make decisions in challenging situations
4. continue to learn independently and to develop professionally
5. communicate effectively, with colleagues and a wider audience, in a variety of media

⁴ The provided table includes only a single line. This will need replicating for each WBL/WRL activity (I.e., placements / real-world industry provided problems to solve / visits / trade shows etc). Additionally, the table should be replicated for each stage of the programme for clarity.

TABLE 1: SEEC Level 7 Descriptors: For consideration in accessing entry to the MSc Advanced Meteorology for Professionals programme ([SEEC 2021](#)),

Summary credit level descriptor	
Applies a systematic understanding of areas of knowledge and advanced skills in abstract and unpredictably complex learning, work, or practice contexts. Acts autonomously to make strategic decisions taking responsibility for outcomes and for leading the systematic and critical evaluation of own and others' capabilities, performance, and development. Uses specialist techniques, advanced methodologies, and criteria to systematically analyse, evaluate, organise, and communicate incomplete and/or contradictory information and data. Designs and develops advanced specialist projects and/or activities to strategically enhance own and/or others learning, work or practice.	
Setting	
Operational context	Operates in abstract and unpredictably complex learning, work, or practice contexts, requiring selection and application of advanced and specialist techniques and information sources.
Autonomy and responsibility for actions	Acts autonomously to make strategic decisions and develops appropriate practice guidelines, taking responsibility for outcomes in abstract and unpredictably complex contexts.
Application of knowledge and understanding	
Knowledge and understanding	Applies a systematic understanding of knowledge and specialist theoretical and methodological approaches, suggesting and incorporating interrelationships with other relevant disciplines in abstract and unpredictably complex contexts.
Cognitive skills	
Conceptualisation and critical thinking	Selects and applies advanced principles, concepts, theoretical frameworks, and approaches to critically develop systematic responses to existing discourses and methodologies, suggesting new ideas in unpredictably complex contexts.
Problem solving and enquiry	Selects and adapts appropriate advanced problem-solving strategies, methods, and techniques to design systematic investigations that define and critically evaluate problems, using specialist information and data in unpredictable and complex contexts.
Synthesis and creativity	Systematically synthesises advanced and specialist information and ideas and formulates and develops innovative proposals to address strategic issues or opportunities in unpredictably complex contexts.
Analysis and evaluation	Systematically and critically analyses and evaluates, incomplete and/or contradictory data and evidence, developing effective and advanced methodologies to explain and support conclusions and recommendations in unpredictably complex contexts.
Practical skills	
Organisation and communication of information	Systematically organises and communicates advanced information, using criteria developed for specialist audiences in unpredictably complex contexts.
Interpersonal, team and networking skills	Applies and develops advanced interpersonal, team and networking skills to strategically enhance team performance in unpredictably complex contexts and contributes to specialist professional communities.
Project and activity design and development skills	Designs and develops advanced specialist projects and/or activities to strategically enhance own and/or others learning, work or practice within unpredictably complex contexts.

Behaviours and values

Ethical awareness and application

Systematically applies an advanced awareness of ethical and professional values and codes of conduct, to personal and strategic decisions, actions, responsibilities, outcomes, and dilemmas, whilst working proactively with others to suggest and advocate appropriate solutions in unpredictably complex contexts.

Personal responsibility and leadership

Takes responsibility for leading the systematic and critical evaluation of own and others' capabilities, performance, and development, applying strategic management approaches in unpredictably complex contexts.

4. Module Records

SECTION A: DEFINITIVE MODULE RECORD. *Proposed changes must be submitted via Faculty/AP Quality Procedures for approval and issue of new module code.*

MODULE CODE: MLA715 **MODULE TITLE:** Research project (Advanced Navigation for Professionals)
CREDITS: 60 **FHEQ LEVEL:** 7 **HECOS CODE(S):** J611
PRE-REQUISITES: **CO-REQUISITES:** **COMPENSATABLE:** N

SHORT MODULE DESCRIPTOR:

Students have the opportunity to research a topic or problem of interest in navigation. Starting with a taught chapter on Advanced Research Methods, the module covers project planning and literature review, building the student's capability to undertake an in-depth investigation employing numerical, analytical and/or modelling of data. Collaboration with the student's employer is encouraged

ELEMENTS OF ASSESSMENT					
E1 (Examination)	N/A	C1 (Coursework)	90%	P1 (Practical)	10%
E2 (Clinical Examination)	N/A	A1 (Generic assessment)	N/A		
T1 (Test)	N/A	O1 (online open book assessment)	N/A		

SUBJECT ASSESSMENT PANEL to which module should be linked: MLA

Professional body minimum pass mark requirement: N/A

MODULE AIMS:

To undertake a programme of advanced scholarship. Plan, execute and report on a programme of research appropriate to the aspirations of the student and their current or chosen field of work within the maritime sphere

ASSESSED LEARNING OUTCOMES: additional guidance below; please refer to the Programme Specification for relevant Programme Intended Learning Outcomes.

At the end of the module the learner will be expected to be able to:

Assessed Module Learning Outcomes (ALOs)	Programme Intended Learning Outcomes (PILOs) contributed to
1. Plan and manage a self-directed period of higher-level study 2. Demonstrate an ability to critically analyse current research and advanced scholarship in the topic of choice 3. Gather, analyse and evaluate relevant material using appropriate advanced methodological approaches 4. Communicate their work effectively and professionally to a specialist and non-specialist audience	

DATE OF APPROVAL: 02/2017	FACULTY/OFFICE: Academic Partnerships
DATE OF IMPLEMENTATION: 09/2017	SCHOOL/PARTNER: MLA
DATE(S) OF APPROVED CHANGE:	SEMESTER: AY
MODE OF DELIVERY: distance learning	

Additional Guidance for Learning Outcomes:

To ensure that the module is pitched at the right level check your intended learning outcomes against the following nationally agreed standards

- Framework for Higher Education Qualifications <http://www.qaa.ac.uk/docs/qaa/quality-code/qualifications-frameworks.pdf>
- Subject benchmark statements <https://www.qaa.ac.uk/quality-code/subject-benchmark-statements>
- Professional, regulatory and statutory (PSRB) accreditation requirements (where necessary e.g. health and social care, medicine, engineering, psychology, architecture, teaching, law)
- QAA Quality Code <https://www.qaa.ac.uk/quality-code>

SECTION B: DETAILS OF TEACHING, LEARNING AND ASSESSMENT

Items in this section must be considered annually and amended as appropriate, in conjunction with the Module Review Process. Some parts of this page may be used in the KIS return and published on the extranet as a guide for prospective students. Further details for current students should be provided in module guidance notes.

ACADEMIC YEAR: 2022-23

MODULE LEADER: Dr Jaimie Cross

NATIONAL COST CENTRE: 111

OTHER MODULE STAFF:

<http://www.plymouth.ac.uk/staff/rboden> Dr Carlos Martins

Summary of Module Content

Identification of a research topic. Planning and management of a research programme, meetings schedule. Critical review of literature. Collection of data and/ or development of theory. Analysis and conclusions. Communication of research rationale, methodology and conclusions

SUMMATIVE ASSESSMENT

SUMMARY OF TEACHING AND LEARNING [Use HESA KIS definitions]		
Scheduled Activities	Hours	Comments/Additional Information (briefly explain activities, including formative assessment opportunities)
Lectures (online) to support scientific research project	10	Indicative figures for distance learning
Tutorials	10	Indicative figures for distance learning
Seminars	5	
Guided independent study	575	
Total	600	(NB: 1 credit = 10 hours of learning; 10 credits = 100 hours, etc.)

Element Category	Component Name	Component Weighting
Written exam	N/A	N/A
Test	N/A	N/A

Coursework	Literature review and selection and development of research question	10%
	Detailed research proposal	10%
	Final 12,000 – 15,000-word dissertation	80%
Practical	Presentation	100%
Clinical Examination	N/A	N/A
Generic Assessment	N/A	N/A
Online open book assessment	N/A	N/A

REFERRAL ASSESSMENT
